WHAT IS THE QEP?
QEP stands for Quality Enhancement Plan that can be defined as a “carefully designed and focused course of action that addresses a well-defined topic or issue that focuses on enhancing student learning.” This plan gives J.F. Drake State Community & Technical College the opportunity to develop a targeted plan to improve student learning. Developing a QEP is a required component of our SACSCOC (Southern Association of Colleges and Schools Commission on Colleges) Accreditation.

WHAT ARE THE GOALS OF THE QEP?
Goal 1: To improve basic numeric skills.
Goal 2: To change the way math is perceived.

WHAT WILL OUR QEP FOCUS ON?
Our QEP will focus on developing a plan to help students become more successful in MTH090 and MTH 098 and will include the following components:

1. **Math Emporium Model**—self-paced computer based modularized learning giving students the potential to complete MTH 090, MTH 098, and MTH 100 in one semester.

2. **Growth Mindset Strategies**—offer the students strategies to change their perspective about math, helping them move from a fixed mindset to a growth mindset.

3. **Success Coaches/Math Tutors**—tutor, track, and monitor student progress participating in the developmental classes (limited offerings during the pilot year of 2015-2016)

4. **24/7 Mobile Access**—access to MyMathLab from anywhere; use Microsoft Surface, laptop, desktop or cellular device.
