

Catalog Addendum 0002 Catalog 2020-21 v1

EFFECTIVE March 1, 2021 – J.F. Drake State Community & Technical College has provided this addendum as an update to the 2020-2021 college catalog to reflect update course requirements for the Practical Nursing-CER program. The following updates are effective as of March 01, 2021 for currently enrolled students and all future students in pursuit of the Practical Nursing-CER award.

The institutional requirements will no longer reflect the requirement for BSS220 – Professional Transition (1 credit hour) for the Practical Nursing – Certificate program and will reduce institutional requirements to 1 credit. Accordingly, the total credit hour calculation will require forty-six (46) credit hours for completion of this certificate program.
